

**WATER ALLOCATION PROGRAM DEVELOPMENT
IMPACT ANALYSIS SUBCOMMITTEE**

1-21-02

9:00-10:30 AM
at the Economic Policy Council
Daviol Square, Building A, Third Floor
Providence, RI
Large Meeting Room

AGENDA:

THE BLACKSTONE VALLEY

1. Analysis of the Blackstone Valley

We will post current land use, future land use, and environmental maps on the board and answer the following questions to the best of our collective knowledge.

- When do we hit capacity constraints?
- Where?
- What are the driving forces causing us to hit capacity?
- What are the probable consequences?
- In this larger context, what are the impacts of the development projects from the fact-based scenarios?

- What specific tasks should be put on our list to help us answer these questions better?

Note: Various committee members have volunteered for tasks that help us answer these questions. If you have useful maps or reference materials on the topic, please bring them to the meeting.

- 4. Set next meeting:** Proposed time February 18, 9 AM.
Topic: Wood-Pawcatuck Watershed
